

QUEEN OF FAMILY SEC. SCHOOL SPONSORED GIRLS -2014

FRANCISCA MATHIAS

She is a fifth born of a family of nine children. Her father is a catechist and does not any steady income. The mother abandoned the family because of poverty. Francisca is in our program of sponsorship because she does not have any future in her family. Her greatest desire is to study and learn a career so as to have better life. Her situation is more like a street child. Since even her holidays are spent in the school, she has nowhere to go. The environment at home is not conducive for a girl of her age to live in one room with her father and her brothers. We hope that you can help her achieve her goal in life.

PRECIOSSA MKENDA

She is 22yrs old and too old to be in grade 10, [form two] but her life has been a tough one. She is a sixth born of a family of twelve and sickly parents. Because of the poverty at home her older sister hired her out to be a housemaid so as to earn money for the family. The sad part is that she was sent far away from her home and the family she worked for mistreated and harassed her. She was rescued and brought to us by the Catholic Women Action. She wants to study and later on if it pleases God to join religious life. Her life has been a very challenging. She is another case that her only home is in the school. During holidays she stays with us. Being missionaries we felt obliged to give a chance to study. We will be eternally grateful if you can help her achieve her dream

JOAN IZENGO

Joan is 15yrs old and is in form two. She come from a very good family and is the first born of seven children in her family. Her parents are young and unemployed. The girl is bright and wants to study but the poverty at home could not afford her to pay her school fee. Her goal in life is to study and be a career woman with a better future than that of her parents. We hope that she may be of help to her young brothers and sisters if she is successful. You help will enable her to have a better life and also an opportunity to use her talent of good brain well, if she is supported to get education

Rose is twelve years old and a last born of the family. Her birth was unexpected and therefore the parent had no interest or means to support her education even though she is smart. One can say is a neglected child. Her older brother and sisters have all left home and are doing very poorly in their lives, so she is left to fend for herself. After passing our entry exam with flying colors she came to us crying for help since her parents wouldn't care for her, since they could not afford her education. She is now in form one and will be very grateful if your sponsorship program can help her acquire the education she so much yearns for.

ROSE TULINGE

She is 18 years old and the first born of a family of eight. Her father after being sacked from his job deserted the family, Leonida was in grade five. The mother who is unemployed/ housewife found herself homeless and was with a big family depending on her without any source of income. She barely finished her primary education by the help of well-wishers. Her main objective in life is to do whatever it takes to have a better life. She is not brilliant but if supported and given an opportunity to study in a good school she will achieve her goal. It is our belief that your program will help her to realize her dream to be a career woman in the future.

LEONIDA BENJAMIN

Dear Waltraud,

Greetings from Kahama,

It is long since we communicated. I hope and pray that all is well with you.

I'm very sorry for the prolonged silence, this is because I was out for six months doing sabbatical as preparation for my silver jubilee – 25 years of religious life, which I celebrated in my home town Moshi July 15th, 2014. Sorry about that.

I also want to inform you about **Rose Sabuni** school fees. I failed to give her the 500 Euro you sent for her school fees since she did not give us the school account where we should pay the money. She wanted to be given that money in cash, which we don't just do. The entire sponsorship fund is paid directly to the school not to student just to be sure that the donor's intentions are respected. Since she never abides by that regulation, she could not claim that money. If it is okay with you can we use the fund to pay for another ex-student of Queen of Family- **Sabina Costantine** who was also sponsored by your program finished A-level and now in school of medicine but has no school fees. She is studying to become a doctor.

Thank you so much for your understanding, may God continue to bless you with good health and generous heart to help others.

With much love,

Sr. Digna CPS
